

BEST COSMETIC DENTIST **C. Lee Wyant, D.D.S. >>**

Creating beautiful smiles, improving dental health is goal of Little Rock dentist

Since 2002, Arkansans have trusted their teeth to Dr. C. Lee Wyant, owner and founder of Smile Arkansas in west Little Rock. Wyant and his team of professionals offer a full range of services, from general dentistry to cosmetic solutions.

“Someone who is interested in improving their smile has many options,” Wyant said. “The key is finding the right office that will listen to your concerns and have the experience and skill to give you the results you’re looking for.”

The most commonly requested solutions, Wyant said, are “no prep” porcelain veneers and Invisalign, a method of teeth-straightening that uses removable plastic aligners instead of traditional wires and brackets.

“We believe everyone deserves to enjoy the benefits of good dental health and a great smile,” said Wyant, who is one of only 65 cosmetic dentists in the United States — and the only one in Arkansas — to be awarded Accredited Fellowship status by the American Board of Cosmetic Dentistry.

A graduate of Louisiana State University’s School of Dentistry, Wyant has completed post-graduate programs at LSU and the Baylor College of Dentistry and has practiced

cosmetic and comprehensive restorative dentistry in central Arkansas since 1982.

As testament to Wyant’s dedication to helping patients enjoy more attractive smiles, readers of the *Arkansas Democrat-Gazette* voted him this year’s central Arkansas’ Best Cosmetic Dentist.

“Being voted Best Cosmetic Dentist is certainly an honor, but Smile Arkansas is not a one-man show,” Wyant said. “This award is not about me, but more about my staff of amazing individuals, often overlooked by the public and media, who so richly deserve recognition.”

Ruth Quick, the clinic’s practice coordinator who has years of experience, is the friendly voice on the phone and the smiling face at the office who makes sure the appointment schedule runs smoothly.

“Our registered dental hygienists, Kelley Rasco and Whitney Robinson, provide that soft touch and help educate our patients about the benefits of good dental health and living a healthy lifestyle,” Wyant said. “Jasmine Miller, our very talented certified dental assistant, also has years of experience. She works closely with me to provide stunning smile makeovers for our patients.”

In addition to state-of-the-art dental care, patients at Smile Arkansas enjoy a bit of pampering with massage pads, warming blankets and even baked goodies and gourmet beverages.

“We want our patients to be more than comfortable,” Wyant said. “We want you to enjoy a pleasant, even rejuvenating, experience.”
